Subject: Memo
Hi Krista. I brought my old (fall 1992) outline to work today and I think it may be helpful to you, although I should probably walk you through it so that you understand my cryptic references. Hopefully, it will at least demystify the issue of how to analyze qualified immunity. Also, it has a short section about how immunity law applies to Federal officials & the relevant case. Of course, the law stated in the outline is dated now by 4 years, so, to the extent that it is useful, you will have to update the cases.
