**Subject:** new views in fbi not-open database

Chet, as we discussed, I think the following view would be useful:"Not-HSCA, Not-in-Any-database OR in reviewtrack but only as a third agency or foreign equities document". This could really have two variants -- one showing only trunks, one showing trunks and branches. This should be in addition to the two views that are "Not-HSCA, not-in-any-database-period," showing only trunks or trunks and branches, respectively.I think this will make sense since we discussed these points already. If it doesn't, let me know.Thanks.
