Subject: Another follow-up to Wallace Milam

Body: I've scanned the now-loaded index to the McCombs Papers which I brought back from Tennessee with me (Chet put it in the "Outside Documents" database). Aside from the JFK assasination files I reviewed earlier this week, there are other things scattered throughout the rest of the collection that could, just possibly, contain something of interest. I thought I'd alert Milam to these other files (I don't think he's seen an index to the whole collection) in the event that he'd want to check them out (and let us know if he finds anything).
