**Subject:** Internet connection

Here are the pricing for a internet connection for the office. We would be able to use Netscape and Newsgroups  
OPTION 1:For standard 28.8 service unlimited access. \$13.00 a month. \$156.00 per year  
We have all the equipment we need for the service.  
OPTION 2:For ISDN 128K service \$26.00 per month \$312 per year  
This would require a new ISDN line and we would need to pay a monthly charge on use. I estimate around \$100 per month + \$25 per month line charges.  
Tracy can you call GSA and find out what are ISDN service options are?  
EROLS will take a PO. the number is 703-321-9420 and ask to be transfered to sales.
