Subject: Senate Intelligence Committee Memo

...is in your respective boxes. Basically, I recommend that David call Charlie Battaglia -- nominally to secure some unprocessed Church Committee records we need ASAP -- and engage him in a dialogue about the depth of our concern regarding the Committee's state of non-compliance with our statute. We tell him we're thinking of writing Sen. Specter a letter expressing our concern and end up offering instead to send Charlie a written proposal for him to review, re: delegating the task of indentifying, RIFing and referring still-unprocessed material to ARRB/NARA. Given their inability to move on this stuff, the two options for Charlie are: 1) permanent non-compliance, with some level of attendant political risk to his boss, or, 2) biting the bullet on delegating the work to us/NARA. It's really an either/or, though Charlie probably hasn't focused on the issue long enough to come to this realization. This is the role David's call will play. The details are in the memo. David, I've attached to your copy of the memo an earlier memo to Jim Wolfe, re: additional unprocessed records we've identified (Jeremy has seen this previously; I don't think I ever gave a copy to you, though I'm not sure). Point is, Charlie needs to understand how much stuff may remain unprocessed.
