**Subject:** FRC boxes of Cuba records at NARA II

**Body:** I spoke with Barry this afternoon about the idea of setting up a "slumber party" over the Cuba FRC boxes we have at Archives. Barry kind of hedged on the idea and wanted to know if we were designating them assassination records. He said he would like Jeremy to give him a call re: this matter. I think the next thing for us to do is to sit down with Jeremy, explain where we are at with this and what we would like to do, and then have Jeremy call Barry. Also, if the designation needs to be made by us regarding these documents' status as AR's, then I so designate. They are important enough to expend this amount of energy on. This is somewhat time-sensitive, since Steve Tilley agreed to allow Laura Bell and I to go up RIFing these documents next week contingent upon a group release session such as JFK Library taking place over these records.
