Subject: HSCA subject-matters at FBI
There is a considerable number of subjects listed in the older lists of HSCA material given to us by the FBI, that are NOT on the list of subjects more recently provided by the FBI (reviewed for suggested prioritization by Jeremy, Doug, and myself), and have NOT been entered into the new database that Joan has been working with. I have called this discrepancy to the attention of Carol Keeley and LuAnn Wilkins at the FBI. LuAnn is trying to determine how a large number of subjects were left off the more recent list. I have cross-checked an older list against the entries in the new database and highlighted on the list subjects that need to be entered in the database. Once these subjects are in the database, we shall have to include them in the rankings of relative priorities.
