Subject: Requests for information

Dave,I have two requests for current location information for you. The first is at Tim's initiation, and the second is initiative of my own. First, could you please get me the current location and phone number of Leroy Fletcher Prouty (aka L. Fletcher Prouty; he goes by Fletcher). He is the source of several theories blaming the military industrial complex for the assasssination, and we would like to contact him for a possible interview. The last information I had suggests he might currently live in the DC area, either northern Virginia or Maryland.The second request is Colonel Sam Kail. He was the military attache in Havana at the time of Castro's takeover, and continued in that position until the severing of diplomatic relations between the United States and Cuba in December 1960. I have begun to develop a personal theory regarding some anti-Castro personel, and Kail's input might be helpful. I would be happy to give you more details in person if you feel you need them. It is entirely possible that Kail is deceased; he was a colonel thirty-seven years ago, which would make his estimated age right now somewhere between 70 and 85. I have no information on present whereabouts.
