Subject: Secret Service

Body: I've reviewed the HSCA-Cross Reference database with a view to the project we've talked about several times, re: referring to USSS anything that NARA's interfiling of the Oct. '95 release has left still unavailable in the public boxes at NARA II. I've printed out the RIFs. The next step would be to give Kris W. the RIFs and have her cross-reference them against the universe of USSS documents she got back but which she didn't interfile because she had a record that they had also been referred to other agencies besides USSS. I expect to see Kris before the week is out, and will get these to her. Let's chat about all this at your convenience.
