**Subject:** a tape

As you know, Doug and I will be interviewing Floyd Boring of the White House Detail on Wednesday morning at 10. On Friday, I asked Tracy for a blank tape. She offered to give me one, and she mentioned that the office has a hand-held tape recorder. She is now gone, and I see no sign that she has made these materials available to me. I asked Chet about blank tapes, and he gave me one from the Board's supply in the conference room. He said that you keep track of these tapes and you should know where this one has gone. Of course, Mr. Boring may not want to be tape recorded in which case I will simply bring the blank tape back.
