Subject: HSCA record 180-10108-10017, Antonio Guillermo Rodriguez
The above record contains, primarily, USSS equities. We believe it was returned by USSS to NARA last October as releaseable in full. It was not interfiled in the public boxes at NARA II, however, probably because it also contained some CIA equities (or perhaps because the document was not physically returned by USSS to NARA). In any case, the record is one of several Joan has written to the USSS about, seeking to ascertain a clarification of its status vis-a-vis that agency. CIA has now returned the document, as well, with a request for a redaction. There is also a SSN contained in the document which, per Board policy, will also require redacting. I have copied the document into the Review Track, where CIA team reviewers can process the requested CIA redaction as well as the SSN. But I presume this should not be forwarded to a "box" for Board review until we have heard back from USSS.
