Subject: Two redacted documents which need to be excised from database
I've come across two records which are stamped "as sanitized" which contain CIA-requested redactions. I must have missed them in my first breakdown of the returned-by-CIA-HSCA-boxes and, as a result, Val subsequently entered them into her database. They are: 180-10092-10206 180-10092-10212I've given these to the CIA team to review, but we need to make sure they are taken out of Val's database so they don't end up in the consent database and get sent out to NARA II by mistake.
