Subject: two things...
1. The new gateway computers arrived. They are in the Board office.2. I just had to take down the notes server and bring it back up. It was giving the error message "not responding"3. (I know I said only two!) I have been getting a CMS Mail Monitor Error (33181-386) while accessing server message all day. I also haven't gotten any notes since I started getting this message--don't know if that is related or if nobody wants to talk to me today!
