Subject: Applicant
Bob Doggart called re whether we had received his resume and the status of his application for the position of investigator or research/analyst with the Review Board. He says it appears that we have several positions available. He is disappointed that we haven't accomplished more at this point. I told him we have transferred thousands of pages to NARA which are now available to the public. He thought our mission was to find out who did it.I told him we are not presently interviewing for these positions but, should we want him to come for an interview in the future, we would get in touch with him. He is the engineer with Tennessee Valley
