Subject: NSA Notification

I had a follow-up conversation with [Screened by: NARA RD-F on October 12, 2016 according to the John F. Kennedy Records Collection Act of 1992, 44 U.S.C. 2107, Section 6(1)A] of NSA today in which I gave him the exact RIF numbers of no-go documents. I also provided him a sense of the Board's objection, where possible without compromising security (e.g. "needs more complete substitute language"). Using the cover sheets they had attached to each document, I was also able to identify the line number where specific text snags occurred, which immediately identified the exact Board objection in nearly every case. (He agreed that giving line numbers was not a security compromise.) He and Claudia are going to comb through these so that my meeting with them on Friday will zero in on the truly contentious issues. They would like to do whatever they can to minimize the fuss related to our Federal Register deadline.
