Subject: NSA documents in the Consent database

Body: There are eight NSA documents in the consent database. They are 144-10001-10026, 144-10001-10053, 144-10001-10057, 144-10001-10064, 144-10001-10137, 144-10001-10141, 144-10001-10142, and 144-10001-10155. I have run the macro to assign them to a consent federal register notice, and they show up in the view "By consent FRN issued". But they do not show up when I hit compose, consent federal register notice
