**Subject:** OpEd piece about ARRB  
I just spoke with Evan Thomas, Washington Bureau Chief of Newsweek. He has written a draft OpEd piece for publication in either the Washington Post or Washington Times. The piece is about the importance of extending the Board's life. He is personally interested in the assassination, and is writing a book about Bobby Kennedy that will be out in 4-5 years. He said he is going to wait for our FY 1996 report before he finalizes/submits his piece.
