Subject: Bethesda and AFIP Compliance Letters
Here are the two documents I placed on Cathy's desk...Jeremy got fed up with different people making endless series of changes to earlier versions (the "moving target" syndrome), so he directed Cathy to get with Ron (who was sick today), and get the very latest "Master" text version, and then use that when inputting people's various customized, unique changes. Remember, these letters are not the latest, MASTER text...they are only of use in seeing what customized changes I felt were necessary.
