**Subject:** Military Compliance Clarification

Because the process has been evolving, I would like to offer the following as a clarification of the current status of military compliance issues. I will be the principal person responsible for NSA compliance (working with Tim, Chris, and, I hope, Irene). Ron will be the principal person responsible for compliance issues with all other DOD entities. It is very important that Tim be fully and completely involved in all steps of the process. Before any letter is sent to any DOD entity, both Tim and I should be shown a draft and we should both approve before it goes out. I think it can be effective to convey a little of the impression of the good-cop/bad-cop routine. We should be making it clear that we are very serious about the completeness of searches, but also that we wish to be reasonable and practical.
