Subject: Indents rather than tabs
It is simply the F7 key rather than hitting tab. Keep hitting F7 to indent further if needed. Let me know if ther are any problems or questions.To: Cathy Rodriguez/ARRB, Joan Zimmerman/ARRBcc: From: Jeremy Gunn/ARRB Date: 01/09/97 08:12:35 AMSubject: Indents rather than tabsI should have put this in the prior message. Cathy, please show Joan how to use the indent key rather than a series of tabs for indenting a paragraph.I am working on the SS-9 follow up and am having to put in headers, delete all the tabs, and then re-indent. When these go in correctly the first time, it saves all of us time and effort.
