TH. SHE SAYS WE SHOULD GO AFTER BURKLEY PAPERS AND LINCOLN PAPERS. WE ARE ON TOP OF BOTH OF THESE. SHE DOESN'T INCLUDE FOX, BUT WE SHOULD CONTINUE WITH HIM AS WELL. To: Jeremy\_Gunn @ jfk-arrrb.gov @ internetcc: (bcc: Jeremy Gunn/ARRB) From: kathy @ praxis.net (Kathy Cunningham) @ Internet @ WORLDCOM Date: 01/10/97 10:36:12 AM CST Subject: Photographic Record Jeremy Gunn wrote: > > Thank you for your reply and for your offer. I will try to be as clear as I can about the kinds of information that would be helpful for our work. > > Because we are pursuing records rather than recollections, we need leads that can tell us where we can look to find records. I will give you a specific example that I hope illustrates the issue: Robert Knudsen. We are aware of the allegations that Mr. Knudsen claimed to have taken autopsy photos and to have had copies that he showed to others. We are also confronted by the fact that, when he had an opportunity to say so under oath, he did not do so. We have spoken to his family. Although they also are under the impression that he took autopsy photos, they do not have any photos or know where any would be. > Thus, as far as Knudsen goes, we are at a dead end. The kind of lead that is not helpful at this point is to hear that he allegedly showed photos to someone. The kind of thing that would be of significant value would be a lead (in addition to the suggestion of contacting his family), as to where any of his photos might be. In short, we need concrete leads regarding locations where photos might be found rather than recollections that additional photos may have been taken. We are aware of the general allegations. We need specific leads. > > You may be interested in knowing that we have spoken in depth with (among others) Vince Madonia, Robert Bouck, and Carl Belcher as well as to the two photo technicians who developed autopsy photos at NPC. Dear Mr. Gunn; I will review my notes for specific leads regarding the possible location of photos. To that end, one such lead immediately comes to mind. See my e-mail (addressed to Eileen Sullivan - which follows) regarding the papers of Evelyn Lincoln. In that note I briefly outlined the circumstantial evidence (ONLY circumstantial, but in my legally uneducated opinion it is a very strong circumstantial case) which points to the possibility that Lincoln and Admiral Burkley were behind the disappearance of the autopsy materials listed as "item 9" on the April 25, 1965 inventory, and that they either possess them, or have knowledge of their location. Although in her affidavit to the HSCA Mrs. Lincoln seems to suggest that Angie Novello and/or Robert Kennedy were behind the disappearance of these materials, a review of the record regarding L. Evans Walker {HSCA 013274}, Katherine H. Davidson {HSCA 013275} and Angela M. Novello {HSCA 013015 and 002194} shows that this was virtually impossible. Additionally, Admiral Burkley is represented by the HSCA's Andy Purdy as claiming to be able to provide access to the missing tissue sections, long after they were gone, and despite his having told the Record
