**Subject:** FOIA Request

To: Jeremy Gunn/ARRBcc: From: Laura Denk/ARRB Date: 01/21/97 05:13:20 PMSubject: FOIA RequestCALL REPORTDocument's Author: Laura Denk/ARRB Date Created: 01/21/97 The Players Description of the Call Date: 01/21/97Subject: FOIA Request for records pertaining to FBI appeals of Review Board determinationsSummary of the Call: I called Carol this morning to discuss with her options for processing the above-referenced FOIA request. I explained that we wanted to expedite the processing of this FOIA request, because, even though we will have to refer certain responsive documents to the FBI for processing, we remain responsible for defending any agency action taken with respect to those records if the requester chooses to pursue the matter through the appeal process and/or into court. She told me that she understands that we need for the FBI to process the records quickly. I told Carol that we would first review all responsive records created by the Review Board and immediately release those portions that contain only public information. I then suggested that, in order to speed things up, we would like to review all responsive records and highlight only those portions that we believe are still classified or should still be withheld under the FOIA. We would then provide the FBI with these highlighted copies and they could review and hopefully just adopt our recommendations.We agreed that we could respond more quickly if people who are familiar with the issues on appeal process the documents for the FOIA request. Carol acknowledged that it would not be expedient to treat the request through normal FBI FOIA channels. I told her that, if it would help her to process the records faster, we could ask the Board to designate these records assassination records.She told me that she would have to check with John Collingwood of OPCA and with Kevin OBrien of FOIA. She said she would get back to me after she talked to them.
