CALL REPORT Issue # 43Document's Author: Dave Montague & Doug Horne/ARRB Date Created: 01.30.1997Who initiated the call? Review Board's representative in the call: Dave MontagueMedical: JFK Autopsy Project Subject: Confirmation re: Dr. Richard LaVerne Davis formerly of the Armed Forces Institute of Pathology (AFIP)Description of the Call \_\_\_\_\_ A "Davis" returned our call from yesterday & confirmed he was the Acting Chief of Neuropathology at the AFIP during 1963. We explained the nature of the Review Board & our desire to arrange for a more substantive interview. Davis has no problem discussing his knowledge of autopsy related events w/us, but would like to do so in appx 1-2 weeks (his father just had cancer related surgery). We asked Davis to contact Doug Horne in order to make arrangements, to which he agreed. We also informed Davis of the fact that we've spoken w/ several individuals concerning the same issue. We verified Davis' information, told him we look forward to hearing from him & thanked him for his time.home officeRichard L. Davis, MD Richard L.
