**Subject:** If you are going to College Park, please read this.

I have two reasons to ask:(1) I think it would be a good idea for Sydney to go up to College Park with someone, be introduced to the Archives folks, and get a sense of the Collection. If you are going up to College Park on a job that a second person could help out on, please let me know.(2) This is by way of something you might be able to bundle with another project, rather than sufficient reason on its own for a trip to College Park: There are 6 FBI documents that I need to have copied at College Park. These documents were declassified and became consent releases in the last several months, so it is possible that the Archives folks have not yet interfiled these documents, in their newly declassified, open-in-full form, with the rest of the FBI file sections they belong in. If this is the case, you may have to ask an Archives person to check in FBI "update" releases that have not been interfiled. The FBI has advised that it HAS sent each of these documents out to College Park to be opened in full.I will give the information identifying the documents to whoever is going out to College Park and offers to get this stuff. I will leave it to whoever is going to coordinate with Martha Murphy or Steve Tilley in advance.Thanks in advance for your help.
