Subject: FBI team update
Since the last update, the members of the FBI team have: prepared records for Board review on reviewtrack; identified consent releases in the FBI core-and-related files and the records referred to the FBI from the HSCA numbered files; continued review of requested records to determine whether they are assassination records (including Brilab materials, files on Mark Lane, FBI HQ presidential protection and Secret Service liaison files); met with FBI representatives on FBI participation in compliance program; worked to identify microfilmmed DOJ records potentially containing assassination records.
