Subject: Please call Lt. Tynes

Body: He has questions relating to some language you used in the compliance letter-- specifically, he would like to know just what we meant by "soft files." He has a crew going out to NARA II Tuesday morning, and would like to inform them before they go, so if you could call him first thing this morning, that would be beneficial to him. (He and I spoke, but I wasn't absolutely sure of our definition and didn't wish to give him incorrect information.) His phone number is (703) 614-4472. Also, he informed me that they are continuing to work on the initial compliance letter and expected to have it to us "within the next two weeks." Thank you .
