I asked Cathy last week to send you an FYI regarding the follow-up letter sent by Betty Ball to our request to correct the RIF disk and provide explanations for some of the RIFs which appear to correspond to both real documents and inadvertent database entries. Betty responded with a letter dated February 24, (Received March 3) in which she enclosed three documents and explained the disposition of other RIFs which I cited in my letter to her. If you want to view the documents I will show you where they are in the SCIF. If everything appears to be in order then we should get this collection out to the archives as soon as possible.
