**Subject:** Conversation with Schaffner on Draft Floor Statement

Following our conversation and after I read the draft statement, I spoke with Schaffner about it. I told him that we agreed that it was fine. However, as you had alluded to, I think, I clarified that on some of the 10,000 documents the Board had not actually voted, but their release by the agencies was prompted by the Board action on documents with similar issues. He will amend that sentence in the statement to say something like "as a result of the Board's efforts" or "the Board is responsible for" etc., etc. Although a small chance, I did not want to be questioned on that number at a later time, so I gave him the clarification.
