Subject: Contacting Curt Gentry
Laura -- I would still like us to contact Curt Gentry. Among some of the issues I think we should cover are: Was there a Hoover taping system? What records did William Sullivan and Belmont have (Gentry interviewed them for his book)? What can Gentry tell us about any records Mohr may have taken (this could help with a potential subpoena of the Mohr estate)? What records did Gentry rely on for his chapter on the Kennedy assassination? Perhaps Sydney could draw up some questions for us to review and set up a time with Gentry when we can call him. --Ron
