Subject: location
I spoke to Tracy this morning about expanding my office space (and Ron's too) by moving to the empty desk in our office. Tracy said you might be able to change the telephone tonight. My computer has a hard drive that makes more noise than most. I am wondering if I could have a quieter computer. Would I be able to keep everything I have on mine if you change computers?I am going to the FBI early this afternoon, but I will be back by 3 PM or so. I'll try to see you then.
