Subject: LA Times reporter
I called Heather Knight to give her a "heads up" about the release and that I was faxing it to her. I also told her a little bit about yesterday's hearing. She said she is still interested and still plans to do the story, but other things keep coming up. She hopes to do the story next week. When she starts to actually shape and write her story, would you like to talk to her about the Board's Congressional dealings? thanks, and thanks again for the reminder.
