Subject: Board Meeting

Jerrie just talked to David about the Board's schedule tomorrow. She told me that he said that the FBI team should be ready early -- at approximately 9:30 a.m. -- but that we probably won't be up until 10:30 a.m. (because Jack has a conference call scheduled for 10:00 a.m. in the SCIF.) I will do a brief general presentation of the work we've done in the new process, but if the Board has questions about a file that you reviewed, negotiated, and wrote about in your memos, I plan to have them ask you all directly, so you should plan to be available tomorrow morning.Thanks.
