**Subject:** Update call

CALL REPORTDocument's Author: Christopher Barger/ARRB Date Created: 06/23/97 The Players Who initiated the call? Review Board's representative in the call: Christopher BargerDepartment of Defense's representative in the call: Edmund F. McBrideDescription of the Call Date: 06/23/97Subject: Update callSummary of the Call:I called Ed McBride of the Joint Staff on June 23, 1997. The purpose of this call was twofold: to inform him of a decision regarding handling of certain documents, and to attempt to set up a time for Will Kammer and/or others from JS to review the 146 JCS documents currently held in our SCIF. Regarding the documents from the Kennedy Library that were referred to them, I reiterated that there has been the mutual decision that operational details are not assassination related. If Will is correct, and the papers contain only operational records, then we do not need to review them. I told Ed that if that is indeed the case, he needs merely to include a paragraph in their final compliance statement stating that the papers were searched for the items identified by ARRB staff as relevant to the assassination, and that no records matching these criteria were found.Regarding the 146 documents, Ed informed me that a) Vanessa has completed her review of the SOD files and that they (Joint Staff) intends to deliver those files to us before the "slumber party;" and b) that Will is definitely planning to come here before the session on the 23rd to both deliver the SOD files and conduct declassification review/equity identification on the records in our SCIF. Vacations by their staff and ARRB meetings preclude a visit by Kammer until the week of the 14th, but we will do it sometime that week; he will get back to me on the date and time.Finally, as a side note, the SOD files will not be able to be included in the mass session; they will have to be reviewed by a CIA representative separately from that session.Don't forget to compose individual Action Item documents for any action items that resulted from the call!
