**Subject:** Anna (pronounced "Anne") Winner Returned Doug Horne's Calls  
CALL REPORT DOCUMENT'S Author: Douglas Horne/ARRB Date Created: 06/30/97 The Flayers Description of the Call Date: 06/30/97Subject: Anna (pronounced "Anne") Winner Returned Doug Horne's CallsSummary of the Call:Anne Winner returned my two calls of last week. My desire was to follow-up on business discussed at our May 14, 1997 meeting (for which I had no current status), and to discuss two items of new business for which the ARRB will soon be sending out letters (requests for additional information).I began by acknowledging receipt of DIA's classified letter regarding the 17 PTC documents for which DIA conducted declassification review. I explained to her that the documents were received on June 24, 1997, the day after her telephone call with Ron Haron, which explains why Ron had no knowledge of this during their phone call on June 23.I also told her that ARRB staff had completed review of the SF 135s covering 1963-64 documents DIA had retired to Suitland, and said there was nothing in that group we wanted to have pulled and reviewed, based on the identifiers provided in the 135s.Request for Status of May 14 Meeting Agenda/Action Items:-Search for records related to "Captain William Edwards of DIA" (see FBI Hoover memo of November 29, 1963): she said that DIA had searched immediately for any such records right after our meeting, with negative results, and that they were unable to identify which of the armed services Captain Edwards was a member of, or provide any identifiers whatsoever. I asked her to include a statement describing the searches conducted in DIA's final compliance statement.-Search of 3 boxes of records identified by ARRB in my memo of May 14, 1997 as possibly containing assassination records: I reminded her that it was unclear at the conclusion of our meeting whether DIA would look through these 3 boxes, or whether ARRB staff would. I told her it was my distinct impression that DIA had preferred to conduct the searches for possible assassination records themselves. She said that nothing had been done on this yet, and asked me to remind her which three boxes I was talking about; I reminded her that they were identified in my memo of May 14, and read her the accession numbers for the three boxes (ONI Naval Attache reports from 1950-59; Army Intelligence Reports from 1963; and Navy Intelligence Reports from 1963). At this point she asked me to fax her this memo of May 14th, which I had hand-delivered to her myself at the meeting; she said that faxing it would "save her a lot of time." (I did so following the phone call.) My understanding following this call is that DIA will pull these 3 boxes, look for assassination-related records, and if found, conduct declassification review.-Search for Specific Categories of Records Which the DIA Historian Had Suggested Might Be Held by Operations Personnel Within DIA (i.e., outside of normal record-keeping systems): I reminded Anne that during our May 14, 1997 meeting, DIA Historian Deane Allen had suggested she ask DIA Operations personnel for Mongoose/Cuban destabilization
