Subject: Help!

I made a change on an agency contact, it was Burton, whom I replaced with Lohr, because Burton retired. Well, now I cannot call up the file under a search for Lohr, I have to search for Burton, who comes up as Lohr. What's going on? And when I print it out, even though on the computer it says Lohr, it comes out with the top line saying Burton. I saved it and edited it, but somehow something went wrong. Thanks for your help in

Body: advance. Cathy
