Recipients of FBIS materials must contact the originator or copyright holder directly to obtain permission to  
disseminate items. \*\*\*Below are some tips for system usage and hints for configuring your browser and  
getting started using the system. "FBIS Latest Headlines" Button The "Latest Headlines" button features a  
sampling rather than a complete listing of the Table of Contents from a Daily Report. Early versions of Web  
browsers limited the "Latest Headlines" capability to a display of approximately sixty headlines. On occasion,  
more than sixty lines may be displayed, but this is not a complete Table of Contents of a Daily Report. The  
Complete Daily Report To ensure that you have accessed all items published for a particular day, click on the  
"Region/Topic Search" button, select the appropriate Report under "region" and fill in appropriate dates in the  
"On or After" and the "On or Before" fields under "System Entry Date." For example, if you want all the items  
published in the East Asia Daily Report for 9 October 1996, check the box next to the region "East Asia", enter  
10-09-96 in the "On or After" field and 10-09-96 in the "On or Before" field. Once you have done this search,  
you may save it as a profile (WITHOUT A DATE LIMITATION). This option will then send you the Table of  
Contents for the requested Report as the "Profile Summary" each time the database is updated. Many of you  
are accustomed to using your browsers "back" and "forward" buttons to maneuver through FBIS Online rather  
than the buttons at the bottom of the FBIS Online pages. This causes your system to display old data stored in  
the disk cache and can cause the system to display the "Account in use statement" at inappropriate times.  
Please use the appropriate FBIS Online buttons at the bottom of the page, when possible, to move between  
pages to avoid this problem. We have also discovered that many users are not clearing their disk caches or
