**Subject:** USSS issues

I just spoke with John Machado. He said that the Service has not yet returned all of the OMB documents we sent to them on May 16, 1997, and June 12, 1997. He said he would check off the RIF numbers for the documents he still has and let me know the status. The Service might ask for some postponements on the OMB materials. John said he looked at USSS records at Treasury, some of which Treasury had forwarded to him for review. USSS had forwarded some of these records to Treasury. So these two agencies are now coordinating their review. John said the Service is coordinating review of some of its records with DOD. John also said he would write a memo with his explanation for the missing folder from the 135 form, "Other Places Folder #6 July-November 1963." He said he would look for the protective survey for President Kennedy's trip to Berlin in June 1963. I told John that I had counted 479 documents referred by Center for Legislative Archives to the Service. John said he thought the number was 800. He will check his source.
