Subject: FBI/Church Committee draft memo

Here's the draft memo. Edit at will, either yourselves, or send it back to me w/instructions. I set it up as being from both Kevin and I to Laura -- on the assumption that Kevin would be finishing the last three sections. Kevin can add whatever he finds, etc. (that's also why I refer to myself by name in the body of the memo, in case you wonder when you read it). Hope it's what you're looking for. The verbiage at the beginning is per your request, Laura, though it may not be quite what you had in mind. Again, no pride of authorship -- edit/transform as you see fit.If the attached document doesn't appear when you click on it, let me know. I'm not sure my computer was set up properly for this when it was shipped out to me.This was fun! Thanks again for making it possible....
