**Subject:** July Board Meeting

The board considered 72 documents at the July meeting. Approximately 2/3 of these documents came from the CIA, while the remainder were from the HSCA. Cable traffic to and from Mexico City dealing with operational considerations and personnel matters made up the vast majority of CIA material. The remainder consisted largely of documents relating to anti-Castro operations in general, and included a number of documents discussing the activities of E. Howard Hunt around the time of the assassination. Most of the HSCA material consists of interviews and other information about a variety of individuals related to the assassination.
