Subject: ATTD referral

I want to double check a few things before I complete my proposed redactions for the ATTD. Primarily I want to determine how frequently Merola (he is the gun buyer not the ATTD informant) was involved with gun smuggling to Cuba. I believe documents already negotiated with the FBI document a pattern of gun smuggling. If this is true only the name of the ATTD informant should be redacted. Given the history of Merola's gun smuggling connections, Merola meeting with the ATTD informant will not reveal the identity of the informant.

Body: I should be able to get my proposed redactions to you tomorrow.
