Subject: Files at IP
There is a series of files (3-4 boxes) at IP which consist of the Latin American Division working files. We need to examine them and decide whether or not they should be considered assassination records. No one from the ARRB has yet examined them but, as they are in your area of expertise, you are the best person to make a recommendation. The issue is similar to that of the Russ Holmes collection. The Agency considers them working files and thus not official records. If possible, could you make plans to spend a day at IP during the next week or ten days to review these boxes. We need a recommendation fairly quickly so that we can define the universe of files to be processed for Barry by Nov.1st.If you can't get to these fairly soon, please let me know so that someone else can be assigned to look at them. THANKS!
