Subject: ATF referral

I am going to drop off copies of the document I discussed with you last Thursday; the ATF "release in part" response to the HERU referral. This document is contained in the files of both Samuel and Gabriel Mannarino. I have included a highlighted copy and a copy with my proposed redactions. Joseph Merola and Jose Aleman were very active in Gun smuggling and had many meetings with gun dealers. I recommend only redacting the ATF agent's name on page B and the date of the contact with the agent on page 4. Please let me know if you need additional information.
