Subject: Lardner -- FYI
George Lardner called (on Friday) and had some questions about the recent July/Aug/Sept advisory. He wanted clarification on the consent release numbers and how they play into the total number of documents.He then asked that I let him know when the Sept. 1997 documents are available at the Archives. I told him we are working on that now and I will let him know.He did not express particular interest in any one document from September.
