**Subject:** Next Step...

Jim, I want to thank you again for the very high quality of the RIFs you have produced (and are still producing) for the JCS and Califano documents. They reflect very favorably on our agency, and will serve the research community well as various researchers and citizens inquire about these documents at NARA in the future. Next step...as soon as you complete RIFs for our pile of postponements, let's do review track on those together...it will be good training for both of us. I can piggyback some "old business" review track (from the Pentagon Telecommunications Center message traffic collection) onto that session. We should plan to present PTC and Califano/JCS review track issues to the Board at the November meeting, and transfer the entire PTC collection to NARA as soon as possible thereafter. Can we plan to do the review track on these issues Friday? Let me know.
