**Subject:** Computer Problem  
I called Debbie this morning and got the information you requested. Also:Debbie said that replies are impossible on messages Jack sends to us on the "MND" one for security reasons. That is the one Tracy has listed on her 10-7-97 list of Board Members that she sends out. It looks like the one in the computer that Jeremy has had problems with is the "dcn" one.Debbie said they are becoming quite frustrated with the computer problems they encounter there. Of course, the problem is probably that they don't have "God" on their side as we do.The name you wanted is Tim Hagaman at 612-664-5021. Debbie asked that you keep their office posted on whatever transpires. Also, please let them know if you don't get cooperation from their support staff on solving the problem.
