Subject: Forensic Pathologist
NRO (National Reconnaissance Office -- the government's experts on photography) have the equipment and willingness to provide additional assistance on enhancing the digitized autopsy images.I asked Kim Herd if she knows a good forensic pathologist who might be able to assist. She recommends Dr. Dan Davis from Minneapolis. Do you know him? Do you know anyone who could make a good recommendation? I spoke with Davis, although I said nothing to him about digitization or enhancements. He would be very happy to assist on a pro bono basis, provided that we pay expenses. What do you recommend? I presume that Anna will be opposed to anything additional being done. What should we tell her or not tell her? Please respond as soon as convenient.
