Subject: ONI Disks
Doug, I called Petty Officer Abercrombie over at ONI regarding the NARA data disks. She needs the actual program to create RIFs and a data disk containing RIF numbers. She didn't think she would need instruction on using the program, but archives should give her a copy of the instruction packet anyway. To save time, she suggested picking up the disks herself from NARA II. She has an Archives badge and makes regular trips up to NARA II for other projects. Someone from Archives or I can call her when the disks are ready to pick-up. She is going to call me tomorrow with her new office phone number.Jim
