Subject: Fast Track --> Review Track Archive

Unless there is another view, it appears that the information that is on the Fast Track RIF page does not appear on the RIF page in Review Track Archive. I had previously mentioned that the N codes do not appear. That is still the case. Now I need to correct the number of postponements for a few documents and add an N-code to one. I will make the corrections, though I'm not sure that it's going to work just right. Can we talk about this next time you are in the office?
