**Subject:** Fast Track --> Review Track Archive, continued  
I did what needed to be done by copying the RIF to Fast Track and working with it there. For the most part it is not a problem that the Fast Track RIF screen does not appear in the ReviewTrack Archive. But I still wish that that information appeared in the Archive database. I'm especially concerned about N-codes. I'm also concerned about the comment field from the Fast Track RIF where we put special substitute language and that we may miss that information when we prepare the Final Determination form. Let's talk about this when you are in the office next time.JOINING GUARANTEES CITIZENSHIP!
