**Subject:** printer problem  
I checked your WP and your Notes and they both seem to be printing as auto select. I think someone may have sent a manual feed doc through before yours and caused the problem. In any case, I tested them both and they work fine now. However, in the process I may have changed the view on your Notes. I hit escape as soon as I hit the wrong key so I don't think it changed but if it did, sorry.
